Level 2 Food Safety for Manufacturing

Highfield has drawn upon years of experience to develop the most interactive food safety e-learning training course available. This e-learning course is suitable for those learners wishing to achieve a Level 2 food safety certificate in manufacturing. It is also ideal for employees involved with food manufacturing. This course is available online through a Learning Management System and gives managers the ability to monitor, manage and record training activity.

What does it cover?

The training modules included in this course cover the key syllabus of Level 2 Food Safety qualifications. These modules include:

- Introduction to food safety
- Microbiological hazards
- Food poisoning and its control
- Contamination hazards and controls
- HACCP from delivery to service
- Personal hygiene
- Food premises and equipment
- Food pests and pest control
- Cleaning and disinfection
- Food safety enforcement

What will learners achieve?

Their knowledge will also be tested by 50 multiple-choice questions, spread across the 10 modules. Subject to the satisfactory completion of this course, learners are given access to an electronic Highfield quality endorsed certificate of completion (in PDF format), which they are able to print and display.

What next?

If you'd like to provide your learners with this e-learning package, simply contact us directly on 01752 547 719/07812 036 030 or email us at training@axiomdynamics.co.uk. Alternatively, for further information on our e-learning courses, please visit elearning.axiomdynamics.co.uk.
